THURSDAY PLENARY SESSION

10:45 AM - 12:30 PM

Sondra Zabar, MD

Professor of Medicine and Director of the Division of General Internal Medicine and Clinical Innovation at NYU Grossman School of Medicine

Dr. Sondra Zabar is a Professor of Medicine and Director of the Division of General Internal Medicine and Clinical Innovation at NYU Grossman School of Medicine, and an Attending Physician at Gouverneur Healthcare Services. A graduate of Brown University and NYU School of Medicine, she completed the NYU Primary Care Residency Program, later serving as

Chief Resident and then co-directing the program for two decades.

Dr. Zabar is a nationally recognized leader in medical education innovation. She directs the NYSIM/ NYUGSOM Standardized Patient Program and is the founding director of the Program for Medical Education Innovations and Research (PrMEIR), which she established to advance evidence-based medical education and support scholarship that links training to improved patient outcomes. Her work has been supported by AHRQ, HRSA, and the Macy Foundation, and has shaped the use of performance-based assessments, large-scale simulation, and readiness evaluations across undergraduate and graduate medical education.

She has authored more than 100 peer-reviewed publications and co-edited a widely used text on standardized patient examinations. A longtime SGIM member since her Chief Resident year, Dr. Zabar has contributed extensively to annual meetings and supported NYUGSOM faculty participation, while also serving on the SGIM Medical Education Committee and ACLGIM.

FRIDAY PLENARY SESSION

10:45 AM - 12:30 PM

MALCOLM L. PETERSON HONOR LECTURE

John Balbus, MD, MPH

Principal of Climate Care Consulting, LLC and former HHS Deputy Assistant Secretary for Climate Change and Health Equity

Dr. John Balbus is the Principal of Climate Care Consulting, LLC and former Deputy Assistant Secretary for Climate Change and Health Equity at the U.S. Department of Health and Human Services. A physician trained in Internal Medicine and Occupational and Environmental Medicine, he has dedicated his career to addressing the health impacts

of climate change and environmental exposures.

Before leading the creation of the HHS Office of Climate Change and Health Equity, Dr. Balbus spent twelve years as Senior Advisor for Public Health at the National Institute of Environmental Health Sciences. His prior roles include Chief Health Scientist at the Environmental Defense Fund and Associate Professor and founding Acting Chair of Environmental and Occupational Health at the George Washington University School of Public Health.

Dr. Balbus received his undergraduate degree from Harvard University, his MD from the University of Pennsylvania, and his MPH from the Johns Hopkins School of Hygiene and Public Health. He is a Fellow of the American College of Physicians and was elected to the National Academy of Medicine in 2021.

Professor of Medicine and Director of the Division of General Internal Medicine and Clinical Innovation at NYU Grossman School of Medicine

Dr. Kevin B. Johnson is the David L. Cohen University Professor of Biomedical Informatics, Computer and Information Science, Pediatrics, and Science Communication at the University of Pennsylvania. He earned his MD from Johns Hopkins and his MS in Medical Informatics from Stanford University.

An internationally recognized expert in clinical information technology, Dr. Johnson's research focuses on the design, evaluation, and implementation of clinical information systems that enhance patient safety and improve adherence to evidence-based practice. He is widely known for his contributions to e-prescribing, electronic documentation, and health information exchange. His work also spans science communication, including producing a feature-length documentary aimed at explaining digital health to the public.

Dr. Johnson has authored more than 200 publications and has been recognized with numerous honors. He was elected to the American College of Medical Informatics (2004), the Academic Pediatric Society (2010), the National Academy of Medicine (2010), the International Association for Health Science Informatics (2021), and the American Institute of Medical and Biological Engineering (2022).

SGIM's learning portal, GIMLearn, transforms the way SGIM is able to deliver education and professional development. It is designed to create opportunities for healthcare professionals to learn and lead in your institutions, and help you improve access and outcomes for your patients. Most content includes CME and MOC credits.

GIMLearn Goals:

- Provide content and tools for career growth/ career pathway in academic medicine
- Share content in areas unique to generalists and SGIM members
- Support the work of various groups and membership types within SGIM
- Provide a vehicle for peer-reviewed scholarly work for generalists' promotion and tenure

2026 ACLGIM LEON HESS MANAGEMENT TRAINING AND LEADERSHIP INSTITUTE

WEDNESDAY, MAY 6

9:00 AM - 5:00 PM

Grounding in Purpose and Care, Flourishing in Leadership

Leadership in health care can be personal. We cannot lead teams effectively unless we are deeply grounded in our purpose and consciously attuned to the structures that define how we work. In a landscape where institutions evolve, pressures intensify, and uncertainty is common, physician leaders thrive not by doing more, but by leading with clarity, compassion, and trust.

This year, we will explore how to...

- Clarify the values and virtues that shape your leadership identity
- Navigate the purposes of and structures that influence everyday decisions
- Cultivate a culture that supports and elevates academic promotion
- Recognize service lines and their impact on team dynamics

At the 2026 ACLGIM Hess Institute, we will explore the essential foundations of effective leadership to navigate complexity with greater confidence and intentionally shape environments where both leaders and teams can flourish.

The Institute is designed as a resource for anyone in or pursuing a leadership role, including Division Chiefs, Hospital Medicine Directors, Associate Chiefs, Section Heads, Operations Administrators and other leaders in divisions of GIM and Hospital Medicine. Please consider sponsoring a colleague/s to join you.

\$570 ACLGIM Full Member (breakfast and lunch included)

\$670 Non-ACLGIM Member (breakfast and lunch included)

WEDNESDAY, MAY 6

6:30 PM - 8:30 PM

ACLGIM Dinner

\$115 registration fee

GIM FELLOWS PRE-COURSE

WEDNESDAY, MAY 6

11:00 AM - 5:30 PM

General Internal Medicine (GIM) fellowships train future leaders in clinical investigation, clinical education, health policy, government, and public health. Despite the presence of fellowships across the country, there are few structured opportunities for GIM fellows to network with one another and meet leaders from other institutions. Attendees of this session will network with colleagues and faculty from across the country while receiving expert feedback on their current work.

Agenda for this precourse includes:

- Panel discussions with GIM Chiefs, and former fellows; and
- Breakout sessions during this interactive workshop.

Topics include:

- How to build local peer and mentorship teams;
- Building national communities;
- Applying and negotiating for a first academic job;
- Optimizing the transition from fellow to faculty;
- Engaging in team science; and
- "Speed Dating" for networking and collaboration;
- Networking Reception in Poster Session

The session will conclude with a discussion of how SGIM can best support/connect attendees moving forward and will be followed by a reception for networking.

\$25 registration fee. This session is an add-on to regular meeting registration.

LEAD SESSIONS AND WORKSHOPS

(open to all attendees)

THURSDAY, MAY 7 - FRIDAY, MAY 8

The 2026 Annual Meeting will feature a dynamic series of workshops sponsored by the ACLGIM LEAD Program. Designed for individuals at any career stage, these sessions bring together expert faculty to explore essential leadership skills and help participants expand their capacity to lead—regardless of current role or academic rank. Through interactive learning, practical frameworks, and real-world application, the LEAD workshop series offers an engaging opportunity to deepen self-awareness, strengthen core leadership competencies, and prepare for the evolving challenges of academic medicine.

Additional workshop details will be available in early 2026.

ONE-ON-ONE MENTORING

The One-on-One Mentoring Program offers students, residents, fellows, and faculty at all levels a valuable opportunity to speak with a more senior SGIM mentor. Even if you have a mentor at your own institution, this program will allow you to meet someone who may offer a new perspective on your professional goals and challenges. Topics for discussion may include early or mid-career advice, research, job responsibilities, professional challenges and how to become more involved in SGIM. All participants will be asked to identify areas of interest to ensure pairs are matched according to their needs. Presenting at the meeting? Request a mentor and ask them to attend your presentation so they can provide you with feedback. This program also provides an opportunity for more senior SGIM members to share guidance and counseling to future SGIM leaders.

Sign-up opens on January 9, 2026.

MENTORING SESSIONS

The mentoring panels offer another opportunity for students, residents, fellows, and faculty attending the SGIM meeting to access mentors and have their questions answered on issues around practicing general internal medicine. This year we will offer eight panels. New this year: Mentoring Across Career Stages brings trainees and junior faculty together to connect over shared areas of interest and career goals, all while building new relationships and strengthening our GIM bonds.

WAMC CAREER ADVISING PROGRAM

The Women & Medicine Commission's Career Advising Program (CAP) is a longitudinal sponsorship initiative to help junior and mid-career faculty successfully navigate academic advancement opportunities by connecting these members with senior "Career Sponsors" throughout SGIM (i.e., Associate or Full Professor). Sponsoring activities focus on CV preparation, targeted committee membership, and strategies for relationship-building for career advancement.

Applications for Sponsors and Sponsees opens on January 9, 2026. Deadline for applications is April 3, 2026.

Plan to visit the SGIM26 Expo & Career Fair

Wednesday, May 6: 5:30 – 7:00 PM
Thursday, May 7: 7:00 AM – 7:15 PM
Friday, May 8: 7:00 AM – 7:15 PM
Saturday, May 9: 7:00 AM – 10:00 AM

WHO SHOULD ATTEND?

This meeting is designed to serve the needs of general internists and other primary care and specialty physicians interested in medical education, research, healthcare delivery and policy, and clinical general medicine.

ANNUAL MEETING PURPOSE

This meeting is intended to develop the professional skills of academic general internists and others interested in medical education, research, healthcare delivery and policy, and clinical general internal medicine. Various learning modalities, including lectures, workshops, and poster presentations, allow attendees to develop a personalized educational experience. Evidence-based best practices, research findings, interesting clinical cases, and skill-building opportunities that address issues important to academic general internal medicine will be presented.

LEARNING OBJECTIVES

At the conclusion of this CME/MOC activity, participants will be able to:

- Identify skills needed to implement actions that lead to tangible change and outcomes for their patients, practices, hospitals, and communities
- Advocate for and effect real-world change on behalf of their patients and the practice of academic general internal medicine
- Identify ways individual physicians can serve as advocates for equitable access to care
- Describe changes to clinical practice based on updated guidelines

DISCLOSURE OF FINANCIAL RELATIONSHIPS

SGIM requires anyone in control of content (i.e. presenting authors, co-authors, and planning committee members) to disclose all financial relationships. All disclosed financial relationships are reviewed and mitigated by an independent review team, with no disclosures. SGIM may contact individuals disclosing financial relationships in order to resolve/mitigate any real or perceived conflicts of interest. All speakers are required to provide disclosures for all authors and presenters at the beginning of their presentation and attest that their content is evidence-based and free of commercial bias.

CME CREDIT DESIGNATION

All sessions, with the exception of Poster sessions, Interest Group meetings, Networking sessions, and Trivia, are approved for CME MOC, unless otherwise noted.

HOW TO CLAIM CME MOC

Following the annual meeting, attendees must complete the online meeting evaluation and assessment survey, which must be completed by June 17, 2026. The link will be sent out via email and available in the meeting mobile app.

ACCREDITATION STATEMENT

The Society of General Internal Medicine (SGIM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through direct sponsorship of the Society of General Internal Medicine (SGIM).

An application for this live activity has been submitted for *AMA PRA Category 1 Credit(s)*[™]. The exact number of credit hours will be available on the meeting website by March 1, 2026.

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Note: Physicians may not apply for, or claim, *AMA PRA Category 1 Credit(s)*[™] for sessions in which they present. Presenters may claim *AMA PRA Category 2 Credit(s)*[™] for preparation time; these credits are self-reported.

ABIM MOC STATEMENT

Successful completion of this CME activity, which includes participation in the meeting, and completion of the evaluation and assessment surveys, enables the participant to earn MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program.

Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit. SGIM only provides MOC for The American Board of Internal Medicine (ABIM).

SGIM is committed to promoting diversity, which is expressed in myriad forms. Some examples include race and ethnicity, gender and gender identity, sexual orientation, socioeconomic status, language, culture, national origin, religious commitments, age, (dis)ability status, and political perspective. This Code of Conduct Policy outlines our expectations for all those who participate in any SGIM virtual or in-person meeting as well as the consequences for unacceptable behavior.

We expect all participants in SGIM meetings to create safe and positive experiences for everyone. In doing so, we forge the best possible environment to advance SGIM's mission and support our core values. This policy is intended to prevent harassment and other misconduct. "Participant" in this policy refers to anyone present at an SGIM-sponsored National, Regional, or other meeting, including staff, contractors, vendors, exhibitors, venue staff, members, and any other attendees.

EXPECTED BEHAVIOR

We expect all participants at SGIM meetings (attendees, members, vendors, exhibitors, contractors, staff, and venue staff) to abide by this Code of Conduct Policy in all venues at SGIM National, Regional or other Society meetings, including ancillary events and official and unofficial social gatherings. The following is not an exhaustive list but is meant to guide attendees in interactions.

EXPECTED BEHAVIOR...

- Demonstrate respect and consideration for all people.
- Listen well to others. Make room for a diversity of voices in group discussions, on panels, and the like. Facilitators invite but be sensitive not to pressure those who have not communicated to do so.
- Be collaborative. Be mindful not to exert dominance over others. Consider the effect of relationship, position, experience, and privilege power differentials, and other factors to avoid dominance.
- Demonstrate that differing perspectives are valued – critique ideas (not people).
- Demonstrate welcome for a diversity of individuals and their identities – pay attention to whether individuals of many identities and roles are included on panels, leading sessions, being called on when they raise their hands, and having their points considered.
- Report conduct concerns to a Meeting official so that concerns can be addressed responsibly and timely.
- Respect confidentiality of the identities of any individuals involved in a conduct concern, while it is being reviewed and addressed.
- Answer questions about conduct concerns in a forthright and complete manner (e.g., when registering or during a review of concerns); and
- Immediately comply if any leader or facilitator of an activity/session, any official of the venue, or any Society official directs a participant to stop a behavior or comment. Please comply when directions are made to implement this Policy or the venue's policies. After Participants comply, they may raise any questions or concerns to a Meeting Official.

UNACCEPTABLE BEHAVIOR...

- Engage in biased, demeaning, intimidating, coercive, or harassing/hostile conduct or commentary, whether seriously or in jest (e.g., based on power differential, actual or perceived gender [sex, identity, expression], sexual orientation, race, ethnicity or national origin, religion, marital status, veteran status, age, body size or other physical appearance, disability, or other identities). This is the opposite of respect and welcoming conduct.
- Engage in personal attacks.
- Intentionally talk over or interrupt others.
- Retaliate against or disadvantage anyone for reporting a conduct concern or assisting in its resolution. Do not make bad faith accusations.
- Disrupt the meeting or engage in violence, threats of violence, harm or threats of harm of any kind. Do not create/contribute to a safety threat or an unsafe or exclusionary situation. Firearms, knives and other weapons are not allowed at Society meetings unless specifically allowed by local laws.
- Invade the personal privacy of individuals, at times or in places where people can reasonably expect privacy. Meeting participants should not view, photograph, audio- or visual- record, or distribute photographs or recordings of, individuals (in any medium) where privacy can reasonably be expected.

CONSEQUENCES OF UNACCEPTABLE BEHAVIOR

Unacceptable behavior from any participant at an SGIM meeting will not be tolerated. If a participant engages in unacceptable behavior, SGIM may take any action they deem appropriate, including removal from an SGIM National, Regional or other meeting (without refund) at which the harassment occurred. Egregious violations will result in more severe sanctions.

DETERMINING A VIOLATION

- SGIM has designated fact finders to understand the complaint, context and extenuating circumstances.
- SGIM has a Senior Officer who is responsible for immediate decisions (such as what to do during the meeting period.)
- SGIM has a body with Oversight Authority to review anything more than a simple complaint. This body can make decisions during the meeting period and after the meeting period. This body ensures fair and consistent decisions and is careful to avoid unwarranted defamation.
- Consequences may include encouragement to participate in a non-punitive, restorative process or community-building option.
- We will follow the principles of due process.

IF YOU ARE SUBJECT TO OR WITNESS UNACCEPTABLE BEHAVIOR

If you are being harassed, notice that someone else is being harassed, or have any other concerns, please contact one of the Meeting Contacts immediately. A Meeting Contact can be identified by a badge with a purple flag.

If possible, provide the following information, preferably in writing:

- Identifying information (name/badge ID, appearance) of the participant about whom you have the concern;
- The behavior that was in violation;
- The approximate time of the behavior (if different than the time the report was made);
- The circumstances surrounding the incident;
- Other people involved in or witnessing the incident.

The Meeting Contacts are trained on how to deal with the incident and how to further proceed with the situation. If needed or requested, Meeting Contact will help participants contact venue security or local law enforcement, provide escorts, or otherwise assist those experiencing harassment to feel safe for the duration of the Meeting.

CONFIDENTIALITY

If the person raising the concern, any identified individual target, or the accused (each an "individual most directly involved") or a particular witness asks the Meeting Contact for confidentiality of their identity while the concern is being addressed, reasonable steps will be taken to do so. But the Society will not maintain confidentiality, if in its judgment and discretion, safety or law, an investigation, determination of a violation, or removal of a Participant from the meeting requires otherwise. Anyone who receives information during an investigation, however, must maintain its confidentiality. Failure to do so is a serious violation of this Policy, as is retaliation against any identified individual target, witness, or anyone who raises or helps resolve a conduct concern.

INVESTIGATIONS AND APPEALS

If you are accused of or being investigated for unacceptable behavior, this complaint will be processed fairly. You may contact SGIM CEO or Deputy CEO to describe your perspective. Any grievances will be handled in accordance with our existing governing policies.
